Forest Products

## RAILWAY TIES & TIMBERS

All our products for the maintenance and upkeep of railway tracks, level crossings and railway bridges, meet, or exceed, all federal regulations regarding wood preservation in both Canada and the United States.

## RAILROAD TIES

We have access to cross ties, both hardwood and softwood, hardwood switch ties, bridge timbers and tie plugs all produced to AREMA (American Railway Engineering and Maintenance-of-Way Association) Specifications and that are treated to AWWA (American Wood Protection Association) UC4ABC and CSA (Canadian Standards Association) 080 Standards.

Our hemlock crossing planks are produced by reputable mills in accordance with Class 1 Railway Specifications.

---

**We are ready to work with Railways and Contractors across Canada and the United States.**

**No matter how large or small your project is, ask us for a quote!**

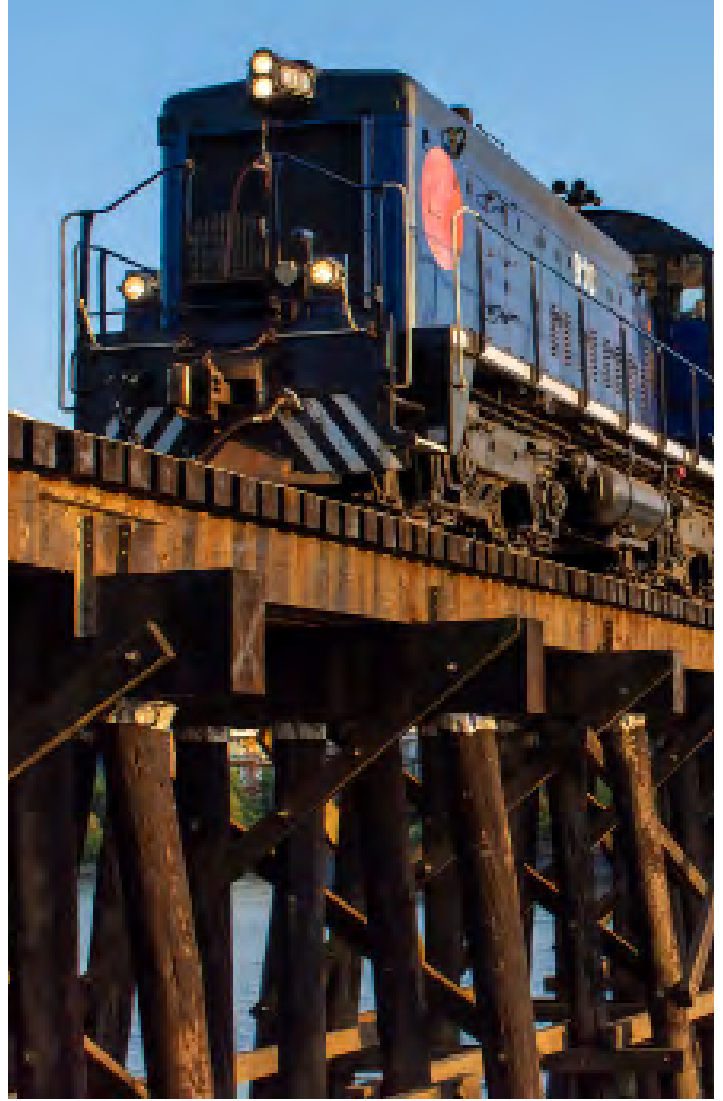

Trans Canada Forest Products is a member of the Railway Tie Association (RTA), the foremost authority on railway ties and timbers in North America.
